

Using Systems Leadership to Shape Change: Introductory Masterclass

**10am – 4pm, 24 January 2017,
Ziferblat, First Floor, 23 Edge Street, Manchester M4 1HW**

10 – 10.30am Arrivals and refreshments

Using Systems Leadership to Shape Change: Introductory Masterclass

10.30am – 1pm

The masterclass will be led by Debbie Sorkin (National Director of Systems Leadership, The Leadership Centre). You'll learn from research and best practice from around the country – practical lessons in what works and what doesn't. There'll be time to reflect and ask questions about what this means for you, and to develop some tools to help you assess the issues you're facing and strengthen your own leadership approach.

1 – 2pm

Lunch and informal networking

Wellbeing Our Way communities of practice session

This will be an opportunity for Wellbeing Our Way's Greater Manchester peer support and supporting self management communities of practice to begin work on their initial priorities.

2 – 4pm

System Leadership in south Manchester

This will be an opportunity for the people involved in the south Manchester system leadership programme to reflect on learning from this morning how we can work differently in south Manchester as well as shape the programme ahead

Facilitators

Debbie Sorkin

National Director of Systems Leadership, The Leadership Centre

@DebbieSorkin2

The Leadership Centre works to strengthen leadership across services, using Systems Leadership approaches to tackle large-scale issues in service delivery, particularly around health and social care, but also encompassing housing, justice and welfare. There are currently 27 Systems Leadership pilot programmes, supported by the Department of Health and other funders, around the country, which are overseen by the Leadership Centre.

I have joined in order to knit together the components of the programme; to build the evidence base and collate the achievements of, and learning from, the Systems Leadership and allied programmes; to help broaden the reach and profile of Systems Leadership across public services, communities and sectors; and to make the case - qualitative and quantitative - for Systems Leadership to show how it can improve outcomes for citizens and communities. We want to embed Systems Leadership in the wider systems of health, care and well-being, so that we can have viable, sustainable and integrated services in line with the ambitions set out in the Care Act.

Emma Baylin

Regional Coordinator - Wellbeing Our Way, National Voices

@EmmaBaylin

Emma has over 20 years' experience of working and volunteering in health and community organisations, leading on local, regional and national programmes. Emma's roles have predominantly seen her based in the Voluntary Sector although she has also worked in local authorities and the Department of Health. Emma's previous post was as Health Development Manager for Regional Voices. Emma is Regional Coordinator for Wellbeing Our Way, Greater Manchester.

Claire Tomkinson

Wellbeing Development Lead and Policy and Influence
Team Lead, Macc

@what_claire_did

Claire is Wellbeing Development Lead and Policy and Influence Team Lead at Macc, the VCSE sector support organisation for Manchester. Claire's main role is to increase collaboration and new ways of working between voluntary sector organisations and health colleagues. Claire is also Vice-Chair of the Board of Trustees at Timebanking UK and is passionate about asset-based, person-centred approaches that define people by their strengths, skills and capabilities focusing on what people can do instead of fixing the things that they cannot do.

Peta Stross

Head of Integration at University Hospital South
Manchester NHS Foundation Trust (UHSM)

@PETASTROSS

An eternal optimist, and a woman who knows a good idea when she sees one, Peta is keen to capitalise on the human race's innate capacity for creativity and compassion. A people enthusiast, committed to making the best use of health and social care resources so that everyone has the greatest possible opportunity to live lives that are healthy, and fulfilling. Peta has over thirty years' experience of collaborating for improvement in health in a range of clinical and non-clinical roles.
